Shorts About Service Men

What the Boys are Doing Here and There

Major Colin Campbell spent four days here visiting his mother, Mrs. E. J. Campbell and his many Truckee friends. Major Campbell spent the past five weeks at Edgewood Military Academy in Maryland. He visited in Oakland briefly with relatives and friends before returning to Portland Port of Embarkation where he has been stationed.

Pvts. August Esola and James R. Thomas are here for a few days on leave from Camp Cook where they completed basic training with the armored infantry. Both are in tip-top form and hope soon to be assigned to a regular division.

Lt. and Mrs. T. H. Jackson left for New Mexico this week following the former's graduation in Texas and a visit in Truckee. The impressive ceremony was attended by Mrs. Jackson's mother, Mrs. Bert Weeden.

Good news did not come singly in the Weeden family for last week they heard from son Kieth in the U. S. Coast Guard somewhere in the Pacific, telling of his promotion to seaman, first class.

Mrs. W. H. Wiley of Boca this week received an undated and typed card from her son, Captain Thomas Shone, who is being held in the Filipino Military Prison Camp No. 2 by the Imperial Japanese Army, according to the notice. The type words of good health, well and uninjured were under scored and he wished to have his family notify his grandmother, Mrs. K. S. Ankers of Winnemucca, Nevada. The sparcely worded card was topped with the imprisoned man's signature. Tom was captured in the fall of Bataan.

Sgt. George Keck wrote to the Colfax Record from Alaska and said he saw his brother Carl in his wanderings and that the two former local men had an old-fashioned "bull session."

Ange Besio, now phamacist mate third class is now attending a field medical school at San Diego and will be attached to the Marine Medical department when he completes the course. Mrs. Besio has returned to Hanford to be with Mr. and Mrs. Clair Goode.

Friends here were pleased to greet Major Bill Holm here last week. He will be remembered as Lt. Holm who commanded the 53rd Infantry when it was stationed here. He has been stationed at Camp Roberts since he was in Truckee.

Pvt. Gino Giovannoni, who recently was transferred to a post in Nebraska has been in the hospital under treatment for an injured back.

Sergeant George Clark of the paratroopers was here Sunday to visit briefly with his father, Frank Clark. George has been in the Alaskan theater for some time.

A welcomed letter this week from Fireman First Class A. E. (Red) Burlingham up in the cold north, tells us that his SeaBee outfit is doing a big construction job and that all crafts are included in the project, including a modern fire department. During his three months in the north Red says he bets there hasn't been six days of sunshine. However, he declares that is somewhat offset by the fine trout fishing. The only other wild life includes silver foxes and eagles with a few ducks. "Outisde of a lot of rain and mud and tundra," he added, 'that's about all we have to offer." He expressed his thanks at receiving the Sun and the news from home.

STATE CHAMBER TO DISCUSS DONNER AT CAPITAL MEETING

Edward M. Fennon, manager of the Sacramento Valley Council of the California State Chamber of Commerce and Howard Reamer, director of the organization, were in Truckee Monday making inquiries relative to the proposed lowering of the sill of Donner Lake by the Truckee-Carson Irrigation District and the Sierra Pacific Power Company, which are reported to have purchased the water rights of the historic lake from the Donner Lake Company.

They announeed that a meeting of the Conservation Committee of the state chamber will be held in Sacramento September 24, at which time views of the proponents and opponents will be thoroughly aired and a solution possibly reached.

The state chamber is taking a lively interest in the controversy and apparently does not favor the lowering of the lake's surface.

They cannot understand, Fennon declared, why the water is needed as property owners at Tahoe are protesting an over-abundance there and the acquisition of Boca reservoir has provided still more and at the same time no new power installations are being erected.

Members of the Truckee Chamber of Commerce will attend the session and other organizations anxious to see the lake retain its current beauty as a natural resource will be present.

Fennon has made several trips to this area in the interest of conservation and expressed a sincere wish to lend all possible assistance.

Deer Plentiful In This District For Season Opening

Indications Good For Those Who Have Bullets And Gasoline

Those hunters who are fortunate enough to have bullets should have little difficulty in bagging their deer when the season opens in this district September 16.

According to all avalable reports there is an abundance of deer in the region, more, in fact, than in several years past. Because of restricted travel however, it is doubtful if there will be the number of hunters as have frequented the region in the past.

Game Warden Bill LaMarr reports that in his travels over the district he has seen indications of plenty of deer in the usual haunts.

The Florsiton-Boca region is said to be well stocked and while the soldiers stationed on maneuvers at Hobart Mills may have frightened some of the animals out of that area, most of them have returned, LaMarr said. The Tahoe backcountry as well as the region over Donner Summit have many herds and in all likelihood the hunters will find excellent luck in their favorite spots.

C. P. McIntosh of Reno, representative for the Richfield Oil Company in this district, was in Truckee this week, making arrangements for a change in the distribution system and announced that John H. Couple Narrowly Escape Death As Car Leaves Grade

Newlyweds Suffer Only Minor Injuries In Donner Mishap

Fortune favored Orris C. Morgan, 27, San Francisco pipe-fitter and his bride of a few hours, Lillian Morgan, 20, at 10 o'clock Tuesday morning when the light car driven by the former skidded a distance of 75 feet while climbing Donner grade and plunged 25 feet into the rocks below the road. Both escaped with minor injuries.

According to State Patrolman Bill Gautche who investigated, the car was virtually demolished. The newlyweds were brought to Truckee where Dr. J. H. Bernard treated them for cits and bruises.

Jackson of New Mexico, 65 miles an hour; Sol Abe Grant, San Francisco, passing on a curve; Chester Winkle, Sacramento, 62 miles an hour; Augustine Bertoli, Santa Rosa, 60 miles an hour; John Eckerman, Sacramento, passing on a hill crest; John Omhundro, Sattlee, driving without due caution.

TAHOE GUN CLUB HOLDS MEETING AT LOCAL HOME

TAHOE CITY, Sept. 9.— Members of the Tahoe Gun Club met Friday night at the home of Mr. and Mrs. Robert Wallace in Truckee. Carl Bechdolt, Jr., vice president conducted the meeting due to the absence of President Bill LaMarr. Stanley Martin, the secretary, read the minutes and the treasurer's report. Members voted unanimously to purchase a $50 War Bond.

Martin read a letter from Vern Scoggins, secretary to Governor Earl Warren in which he acknowledged receipt of the club's letter requesting the executive to use his influence to keep the Japanese confined in camps for the duration of the war. Governor Warren is heartily in accord with the view taken by the group and others in this area and recently made this question the theme of his address before the National Governors' Conference in Ohio. He greatly appreciated the club's stand in the matter and heartily concurred in their plan for preventing another Pearl Harbor.

Stanley Martin, A. M. Anderson and Bob Wallace were appointed as a committee to investigate the possibility of reenforcing the club's target range at the top of the hill southwest of Tahoe City. Practice shoots will be held again at the conclusion of the coming hunting season.

Today the Third War Loan Drive gets under way all over the nation with volunteer workers taking the field in an effort to raise sufficient money to continue the war to the finish. In our form of government, we are asked only to loan our cash to the cause for which we are fighting. There are no armed agents knocking at your doors with demands, simply your neighbors asking that you lend your money, at a neat rate of interest until the job is completed. Nothing could be fairer, nothing more democratic. You don't have to assist, you are merely asked if you will and we know that if you possibly can, you will only be asked once. So Back the Attack with War Bonds today.

Advertising is certainly taking a new and unique slant and if someone had told us a few years ago that concerns would ever advertise NOT to use their product or service, we would have thought them foolish. But take for an example the trend of the Pacific Telephone and Telegraph Company's current schedule. Every ad appeals to the public to refrain from the use of the telephone except when absolutely necessary. Naturally there is a sound purpose behind this strange appeal. The telephones are over-burdened attempting to meet the demands made upon them by the vital war calls and with materials limited, the companies are attempting to continue their excellent service without further draining the much needed supply of war material. That the local company is doing a stellar job cannot be denied. Service may at times be delayed, but nevertheless it continues. However, we urge that the unusual request to avoid use of the telephone be obeyed so that our war centers, our service men and other vital patrons of the telephone may have uninterrupted service so necessary in the prosecution of the war.

Each year about this time, we issue a warning that with the opening of deer season, bullets ar going to fly and being more or less familiar with bullets we know that once they leave the gun, they cannot be recalled or diverted. So be sure you are aiming at a deer and that no one will be injured if you miss. Better never have a shot than take a chance on seriously wounding a fellow hunter.

NO GAS ALLOWED FOR HUNTING CARS

The Office of Price Administration has notified prospective hunters that no provision of the gasoline rationing regulations permits holders of supplementary B and C books to use any part other than 90 miles per month for hunting. Holders of A books may use their 240 miles per month as they so determine.

Third War Loan Drive Open In This Area Today

Little Names Assistants In Truckee To Handle Bond Drive

The Third War Loan Drive is on.

Chairman Richard Little of the local committee has reorganized the former volunteer workers and everything is set to raise the $60,000 quota assigned to this vicinity.

Called the greatest drive for dollars anywhere, anytime and with a slogan of Back the Attack with War Bonds, it is hoped to have reached the goal by September 30.

Lake Tahoe has fully organized for the campaign with J. H. Johnston as general chairman. Detail of the Tahoe drive will be found on another page of the Sierra Sun today as will the first of a series of Treasury Department advertisements sponsored by a group of local firms.

Little announced, following the organization meeting at Bank of America last week, that members of the committee in this region are Mrs. E. C. Bavier, Mrs. A. R. Ghirard, A. P. Leitch, N. F. Dolley, W. M. Barrett, F. W. Gaiennie, L. A. Greene, H. T. Langille, C. Edmunds, C. M. Wray, B. T. Weeden, Arthur Coulliard and Little.

It is the desire of the committee to contact everyone in Truckee and the surrounding region, but bond purchasers are asked not to wait to be called upon but to contact some member of the committee or call at the bank or post office where sales will be made.

The quota set for this area is to be raised from non-banking sources only. It is nearly double that of the Second War Loan Drive last April.

The slogan, Back the Attack with War Bonds, means exactly what it says, Little declared. It means that every American—every man and woman, boy or girl—must play his part in financing the attack on the enemy now under way on battlefronts around the world—that offensive that cannot end until victory is won.

And remember, Uncle Sam is asking no oen to give him money. He asks you only to lend your money—at interest.

STORK CHASES CAR ON DONNER SUMMIT

RENO, Sept. 9.— Nobody is blaming Robert Stafford Gamble of Twin Falls, Idaho, for exceeding the speed limit of 35 miles an hour on his trip from Donner Summit to Reno's St. Mary's hospital.

Gamble and his wife were returning to their Idaho home from California when the stork began to gain on their car. Gamble made the trip and high speed and a few minutes later the stork arrived at the hospital with a seven pound daughter.

Duration-ize your appliances with timely repair!

America needs men who can STAY on the job. 90% of lost time in war work industries is due to sickness—not accidents. This work loss will reach a high peak this winter unless all workers strictly adhere to the rules of health.

Look at these figures! In 1941 illness caused a loss of 100 million man-days of work. Upset stomachs were responsible for the loss of 25 million man-days. The common cold caused a loss of 45 million man-days. Eye strain and ailments caused a loss of 35 million man-days.

Take care of yourself OFF the job—at home as well as on the job. Plan and eat nutritionally balanced meals for body strength and energy. Keep your home heated at healthful temperature, neither stuffy hot or goose-pimply chilly. When you use your eyes give them adequate light for restful, comfortable seeing.

Conserve your health. Do your part in the National Health Protection Program this winter.

TAHOE LETTER

* * * *

To the Service Men

From SWANEE

Tahoe City, Sept. 9, 1943

Dear Tahoeites:

Today is Labor Day and those who succeeded in motoring to the lake for a few days relaxation should be more than pleased with the beautiful sunny weather we have been enjoying In fact the lake last week has been one of the loveliest the region has exeprienced, although frosty mornings and evening still prevail.

We are pleased no end to hear the radio reports that in all the large cities of the nation, Labor Day this year is just another day of production for the war effort. All parades and celebrations in the bay area weer suspended, although some brief patriotic observances were held at various points. Which is as it should be. We can afford to forget the many holidays with which our calendar is interspersed and save all our jubilation for that greatest of all days .... the day of final victory, when every corner of the earth will ring with the resounding cheers of millions of liberated people. Only hope and pray I live to add my eager voice.

The envy of all his brothers-in-arms is Sherwood Prusso, son of the Everett Prussos of New York, now back at Tahoe for a well-deserved respite. Sherwood spent 11 months with the Marines, and saw a lot of interesting scenery, but was honorably discharged beacuse of the recurrence of an old injury to his arm. He has taken a cozy little cabin at Worden's Ward Creek Camp and daily takes swim in the lake, spending hours on the banks of winding streams or mountain lakes, catching evasive trout. His greatest thrill will arrive with the advent of September 16 when deer season officially opens in this district. He has his rifles all poilshed and oiled for the opening day. He plans soon to seek medical attention for his arm and then try for enlistment in some branch of the service.

Reecived a real surprise Saturday when C. S. Anderson of the Tahoe Cedars district walked in for a visit with us, accompanie dby his handsome son Bob, now a staff sergeant and head of a service record department. For the past year he has been stationed at LaJunta, Colorado with the air corps. His trip to Mather Field from Colorado was made by a plane in five and a half hours and even for Bob is was quite a thrill. He informed us that in February of this year he took unto himself a wife, the former Louvina Jahnston, daughter of Mrs. Ona J. Johnston of La Junta. They were married at a simple ceremony at the home of the bride's mother and enjoyed a seven day honeymoon in Alameda. He is thoroughly enjoying his rest at Tahoe which he says is the prettiest place he has seen in all his travels. He sends regards to all his friends in the district.

Bob's twin brother, Richard, is married and wroking as a welder at Permanenti. Another brother, Eugene is a seaman first class with the coast guard at Seattle. He visited briefly at the lake two months ago with his parents. The elder Anderson have every reason to be proud of their stalwart sons and we take pleasure in adding their name to our ever growing list of Sierra Sun subscribers.

From our old friend, Tim Butler at the Tavern e learn this week that three of his boys, who used to enjoy their summers working with him at the Casino are giving good account of themselves in the service. Ted Cope, whom I last heard from in a Texas training acmp, has acquired the rank of ensign and is believed on active duty in the Alaska theater; his brother Bill, is stationed somewhere in the east and may be entering active duty since his letters have been far spaced. Bill Delaney, who used to have a real weakness for my creampuffs in days gone by, is now a captain in the tank corps. He has seen extensive training of the African front and is now back in Massachusetts undergoing a bit of special ized medical treatment. We are happy to hear of their progress and with them all the best of luck in the months ahead.

Tahoe's only WAC, Miss Florence Vernon, is back at home onec more and tickled to be here. She arrived at Truckee Sunday morning and was fortunate in enocutering D. M. Brodehl, Tahoe mail contractor, who gave her a lift home much to the surprise of her family who did not expect her back for several days. She had been visiting irfends in Connecticut, having been honorably discharged some time ago.

Our old friend Gene Rogers has finally tired of waiting for the aircorps to call him for duty, and so has enlisted in the navy. Because of his contribution to the home front he has been deferred now being in charge of the archouse of a steel company in the bay area.

Carl Bechdolt, Sr., donated to the good cause last week when he gave his own hunting kinfe to Mrs. Gerda Kvistberg, in order that Grandson Lt. James Easton may have one to take along on his next assignment to duty. He wrote and asked earnestly that one be sent if possible to find. Mrs. Kvistberg could not find one so Carl acme to her rescue.

The Atherton boys, Leslie and Allen are doing their bit in this man's war. Leslie now at Roscrans Field, St. Joseph, Mo., has acquired his wings. His interest lies in radio. Allen, as yet only a private, is at Kearns Field Utah but is doing alright, we'd sad. Out of 400 men he was one of ten who made expert ratings in marksmanship. Good luck, boys, to both.

Rodney Yeakel has now been heard from at his new address, Buckley Field, Colo., where he is training in the air corps. Good luck Rodney from all th gang back home.

Must hasten along once more, as time grows short to mail deadline but hope this finds you all in good health, with a heart full of pride for the wonderful ocuntry for which you are priviledged to fight .... In the years ahead you will be proud to have been a part of the glorious history now in the making and to each and every one of you we say cheerio and carry on! All good wishes .... and hoping peaec and victory overtake us before the end of 1943.

As ever, SWANEE.

3RD WAR LOAN DRIVE FOR INVASION

● Put a circle around the date—Thursday, September 9th. For that's the day the 3rd War Loan Drive starts.

On that day, you will be asked to go the limit to back our valiant fighting men. You will be asked to do your share in the greatest invasion the world has ever seen. Answer your country's roll call!

Your part is to back this invasion by investing in at least one EXTRA $100 War Bond in September. That's *in addition* to your regular War Bond purchases. Invest *more* than $100—a *lot* more—if you possibly can.

The job is big. *Everyone* must do his *full share* if we are to put this drive over the top.

War Bonds are the safest investment in the world. For your own sake, for your Country's sake, put every spare dime and dollar in War Bonds during the 3rd War Loan Drive.

HIGH EXPLOSIVE bombs ~~BOMBS~~ FOR TOJO!

★War Bonds financed the victories at Midway and the Coral Sea. War Bonds will finance the final destruction of Tojo's vaunted fleet.

Six hundred heavy bombers can be built for the 300 million dollars in War Bonds which the men and women of Bank of America have pledged to sell over a six months' period. That's enough bombers to make things mighty hot for the Sons of Heaven.

Remember, the sale of War Bonds is vital! War Bonds are not only the best investment you can make—an investment which pays good interest—but they are as essential as anything in your personal budget. So after you have set aside the amount you need for essentials, invest the *rest* in War Bonds.

When you buy a War Bond at Bank of America you receive the badge of the Bond-bardiers.

To the People of this Community:

PLAIN WARNING TO YOU!

Here is a plain warning for you . . .

"This war will last until 1949 or longer if the home front fails to back up our men in battle" . . . Frank Knox, Secretary of the Navy.

Buying War Bonds to the point of temporary personal sacrifice is the most direct way you can comply with Secretary Knox's appeal.

"Temporary sacrifice" is the correct phrase because you are only lending your money when you buy War Bonds. This government which never has defaulted on an obligation will pay you back $4 for every $3 invested if you hold the bonds for 10 years.

The least you can do is to back the attack with War Bonds today. Buy extra Bonds above your normal Bond buying.
